

Call for Papers

The 2009 IEEE International Workshop on Risk Management and Emergency Logistics (RMEL 2009)

In conjunction with ACCS2009, Sanya, Hainan Island, China, April 24-26, 2009

<http://www.gip.hk/cso2009/accs2009/>

Motivation

Without question, nowadays the world has become a risk world, filling with all kinds of threaten from both nature and man made, such as Asian financial crisis, SARS, 911 event, snow disaster in south of China, the “5.12” earthquake and so on. So, risk management and emergency logistics are increasingly regarded as two of the most important and urgent issues in the current society. As we all know, the daily risk management and the quick response emergency logistics to the emergency demand after disaster happened are both vital, which remain challenging in the related research domains.

Topics

This workshop will provide an open forum for the dissemination of the novel research progress, innovative modeling approaches as well as original research results on all aspects of risk management and emergency logistics. The workshop will focus on, but not limited to, the following topics:

- ◆ Supply Chain Risk Management
- ◆ Supply Chain Emergency Management
- ◆ Disaster (Hazard) Risk Management
- ◆ Disaster Emergency Logistics
- ◆ Risk Identification and Measurement
- ◆ Risk Evaluation and Control
- ◆ Risk Transfer and Reduction
- ◆ Risk Avoidance and Hedging
- ◆ Risk Valuation and Pricing
- ◆ Public Health and Food Safety Management
- ◆ Natural Disasters and Catastrophic Accident Management
- ◆ Global Environment Security Assessment and Management
- ◆ Computer Simulation Theory and Technology on Security Management

Publications

All accepted workshop papers will be included in *IEEE Computer Society Proceedings* if they have paid for registration fee, which will be indexed by **EI Compendex** and **ISTP**. Furthermore, the workshop organizers can recommend the extended versions of some selected high-quality workshop papers to the following international journals.

- ◆ Journal of Computer and System Sciences (**SCI-indexed**)
- ◆ Computational Intelligence (**SCI-indexed**)
- ◆ Computing and Informatics (**SCI-indexed**)
- ◆ Optimization (**SCI-indexed**)

Paper Submission and Important Dates

Deadline for paper submission	<u>November 20, 2008</u>
Notification of acceptance of papers	December 10, 2008
Camera ready papers:	January 1, 2009

All the submissions must be written in English with Microsoft Office Word97 or above version, using the IEEE two-column format.

(see ACCS2009 website: <http://www.gip.hk/cso2009/accs2009/submission.htm>).

All papers must be submitted in **WORD** or **PDF** format to address: rmel2009@126.com with the subject of “**RMEL2009 Submission**”

Workshop Co-Chairs

Prof. Lothar Schulze

Department of Warehouses and Transport Systems, University of Hannover, Germany

E-mail: Schulze@pslt.uni-hannover.de

Prof. Amy Z. Zeng

Department of Management, Worcester Polytechnic Institute, USA

E-mail: azeng@wpi.edu

Prof. Jianhua Ji

Antai College of Economics and Management, Shanghai Jiao Tong University, P.R.China

E-mail: jhji@sjtu.edu.cn

Prof. Xiangpei Hu

School of Management, Dalian University of Technology, P.R.China

E-mail: drhxp@dlut.edu.cn

Prof. Jiafu Tang

Institute of Systems Engineering, Northeastern University, P.R.China

E-mail: tangjiafu@ise.neu.edu.cn

Prof. Hongwei Wang

Institute of Systems Engineering, Huazhong University of Science and Technology, P.R.China

E-mail: hwwang@mail.hust.edu.cn
