

International Journal of Optimization: Theory, Methods and Applications

ISSN 2070-5565 (Print) ISSN 2070-6839 (Online)

<p>Aim and Scope</p> <p>International Journal of Optimization: Theory, Methods and Applications (IJOTMA) is devoted to the publication of carefully refereed papers dealing with theoretical, computational and application aspects of optimization. Typical theoretical areas include linear, nonlinear, stochastic, parametric, multiobjective programming, control theory, game theory as well as nonlinear systems etc. Besides research articles and expository papers on theory, methods and applications of optimization, papers on numerical experiments and on applications in engineering, management and the science are welcome. The journal also publishes conference proceedings, special journal issues and book reviews and announcements.</p> <p>The IJOTMA cordially invites authors to submit their original contributions on all topics including, but not limited to the following topics.</p>		<p>Editor-in-Chief</p> <p>Prof. Kin Keung Lai City University of Hong Kong, Hong Kong</p> <p>Managing Editor</p> <p>Dr. Shashi Kant Mishra Banaras Hindu University, Varanasi, India</p>
